🔖 Mentioned in "Working in Public: The Making and Maintanance of Open Source Software" - a book by Nadia Eghbal (Stripe Press)

PERSONAL PROFILE

I'm a young full stack developer and open-source enthusiast. I maintain several OSS projects, including the ones used by Fortune 500 companies.

WORK EXPERIENCE

Full Stack Developer
myPolitics | Jan 2021 - present

- Worked on creating and maintaining the 3rd version of a web application (mypolitics.eu).
- Used modern tech stack, including TypeScript, React, Next.js, Styled Components, Apollo GraphQL, Nest.js and MongoDB.

Founder
Parsify Desktop | Jun 2020 - present

- Created a fully functional and customizable, text-based calculator supporting variables, currency conversion, date and time operations and more.
- Used by students from MIT, UCL, NYU and more.
- 6th product of the day on Product Hunt.

EDUCATIONAL HISTORY

Zespół Szkół Komunikacji (High School)
Math, Physics, Computer Science | Sep 2019 - Jun 2022
